Analytics: Data Analysis, Market Research, Competitive Analysis, Industry Reporting

WORK EXPERIENCE

Innowell Cross CDK — **Shanghai, China (Remote)**
Cooling Systems Research Intern — 08/2026 - Present
- Research materials used in cooling systems across companies and compile findings into a structured reference
- Document material properties and cooling applications to support comparisons of material selection across companies

Tencent — **Shenzhen, China**
Industry Solutions Group Intern — 07/2024 - 09/2024
- Built an Excel tracker of approximately 100 AI and data centers across China to map development trends and support market monitoring
- Compared computing-power subsidy policies across Chinese provinces and 60 data centers; authored an industry report covering policy, market trends, competition, and outlook; presented excess computing-power solutions at the three-day Tencent Digital Ecosystem Conference

DEH-TECH — **Remote**
Marketing Analyst Intern, Data Center — 09/2023 - 12/2023
- Reviewed 50+ international sources on five data center cooling methods, with in-depth analysis of two; synthesized findings in a 2,500-word industry report
- Analyzed countries representing approximately 80% of Southeast Asia's data center market; summarized growth drivers and competitive dynamics for manager review

ACADEMIC PROJECTS

Brandeis University — **Waltham, MA**
State-Level Child Maltreatment Analysis — 01/2026 - 05/2026
- Analyzed child maltreatment rates across U.S. states using age-based regression models
- Prepared a report summarizing state-level comparisons and age-based regression findings

Predicting the Impact of H-1B Policy Changes — 01/2026 - 05/2026
- Predicted the impacts of H-1B policy changes on technology and nontechnology companies based on differences in their business footprints
